

# Simple and effective

## Ventless Hood

### The features of the TDR Rotisserie Ventless Hood are as simple as they are effective.

With the Fri-Jado rotisserie ventless hood, it is not necessary to spend time and money on installing a central ventilation system. You will save energy, as you will bring no disturbance to your store climate. Because the units are self-contained, you can position your TDR rotisserie anywhere in the store and create a front cooking situation.

Our extraction hoods have an advanced filtration process which removes grease-laden vapor, odor and smoke.
